FIFTH INTERNATIONAL SYMPOSIUM ON SECONDARY LEUKEMIA AND LEUKEMOGENESIS

HONORARY PRESIDENT: GIUSEPPE LEONE
CONGRESS ORGANIZERS: FRANCESCO LO COCO, LIVIO PAGANO, MARIA TERESA VOSO

ROMA, SEPTEMBER 22–24, 2016
NH Collection Vittorio Veneto Hotel

Program
www.secondaryleukemia2016.com
Dear Colleague,

we are pleased to welcome you to the “5th International Symposium on Secondary Leukemia and Leukemogenesis” in Rome on September 22 -24, 2016. This conference has long since become a traditional, well established meeting that gathers together renowned scientists, from all over the globe. In fact, basic science, translational and clinical experts will update the audience on most recent advances related to both laboratory and clinical research in secondary leukemias. In this field, new scenarios have recently emerged and certain mutations frequent in therapy-related leukemias (e.g. TP53), have been identified in patients’ bone marrow at the time of the primary malignancy, before the administration of any cytotoxic therapy, indicating a pre-existing minor clone which expands under the selective pressure of cytotoxic treatment. In addition, somatic mutations in genes recurrently involved in acute myeloid leukemia and myelodysplastic syndromes have been identified in the peripheral blood of normal elderly individuals, changing the concept of susceptibility and correlating it not only to germ-line, but also to acquired genetic changes. The “Fifth International Symposium on Secondary Leukemia and Leukemogenesis” will provide a comprehensive update on clinical and biological issues of this changing landscape, hopefully providing new perspectives for future prevention and treatment of this late complication of cancer therapy. The symposium offers a great opportunity for young investigators interested in the field to present their work in dedicated oral and poster session.

We wish you enjoy both the meeting and the Eternal City!

Francesco Lo Coco          Livio Pagano          Maria Teresa Voso

HONORARY PRESIDENT
Giuseppe Leone

</table>
THURSDAY, SEPTEMBER 22, 2016

12.00-12.40  Light Lunch

12.40-13.40  **Opening Ceremony**

Lecture I

**Chairman: F. Lo Coco**
- Senescence and cancer  
  P.G. Pelicci
- Therapy-related myeloid neoplasm: who really has it?  
  R.P. Gale

13.40-14.45  **Age-related clonal hematopoiesis**

**Chairmen: A. Cuneo, D.G. Tenen**
- Acquisition of somatic mutations and blood cancer risk  
  M. Cazzola
- Clonal hematopoiesis, isolated cytopenias and differences with myelodysplastic syndromes  
  P. Fenaux

Selected Abstract:
- Clonal evolution in therapy-related neoplasms  
  E. Fabiani

14.45-15.15  **GILEAD Sponsored Lecture**

**Chairman: M.A. Sanz**

Invasive fungal complications in secondary leukemia  
L. Pagano

15.15-15.45  **Coffee Break**

15.45-18.15  **Biology of therapy-related myeloid neoplasms**

**Chairmen: M.M. Le Beau, C. Nervi**
- Mutational landscape of therapy-related versus other secondary leukemias  
  M.J. Walter
- Molecular analysis of del(5q) t-MN and identification of haploinsufficient tumor suppressor genes on 5q  
  M.M. Le Beau
- TP53 as major player in leukemogenesis and t-MN  
  G. Martinelli
- Epigenetic differences in t-MN according to the primary tumor  
  M.E. Figueroa

Selected Abstracts:
- Baseline predictors of mortality in patients with relapsed or refractory acute myeloid leukemia (AML) treated with vosaroxin plus cytarabine or placebo plus cytarabine in the phase 3 valor study  
  A.M. Carella
- The ELN risk classification has prognostic relevance also in elderly patients with secondary acute myeloid leukemia and may support treatment decisions. A retrospective multicentric study of the rete ematologica lombarda (REL)  
  M. Farina
FRIDAY, SEPTEMBER 23, 2016

9.00-10.30 Epidemiology, cytogenetic and clinical features of t-MN
Chairmen: S. Amadori, G. Specchia
- Epidemiology of t-MN: an evolving scenario? S.M. Ramadan
- Cytogenetics and molecular biology C. Mecucci
- Differences between therapy-related and secondary leukemias R.A. Larson

10.30-11.00 Coffee Break

11.00-11.30 Lecture II
Chairman: M. Cazzola
WHO 2016 classification of AML B. Falini

11.30-13.00 Secondary leukemias and primary malignancies
Chairmen: M. Baccarani, V. De Stefano
- Myeloproliferative disorders T. Barbui
- Lymphoproliferative disorders S. Hohaus
- Strategies to minimize the occurrence of t-MN: the paradigm of childhood ALL A. Biondi

Selected Abstract:
- Comparative genomic analysis of PML and RARA breakpoints in paired diagnosis/relapse samples of patients with acute promyelocytic leukemia treated with atra and chemotherapy L. Iaccarino

13.00-13.30 CELGENE Sponsored Lecture
Chairman: A. Tafuri
Treatment of low-blast count AML M.T. Voso

13.30-14.30 Light Lunch

14.30-16.00 Leukemogenesis according to the type of exposure
Chairmen: D. Grimwade, F. Pane
- Mitoxantrone S.K. Hasan
- Radiotherapy R.A. Larson
- A-bombs and environmental exposures R.P. Gale
- The role of embryonic stem (ES) cell factor SALL4 in MDS/AML L. Chai

16.00-16.30 TEVA Sponsored Lecture
Chairman: G. Avvisati
Acute promyelocytic leukemia as a second tumor F. Lo Coco
SATURDAY, SEPTEMBER 24, 2016

9.00-9.30 Lecture III
Chairman: G. Cimino
Regulation of DNA methylation by RNA D.G. Tenen

9.30-11.45 Natural history of t-MN and treatment
Chairmen: W. Arcese, S. Sica
- Therapy-related MDS: are prognostic scores applicable? A. Kuendgen
- Differential treatment approaches for therapy-related acute leukemias A. Venditti
- Role of allogeneic transplantation A. Rambaldi
- Clinical effect of somatic mutations in t-MN treated with allogeneic stem cell transplantation M.G. Della Porta

Selected Abstracts:
- Monocentric observational study on secondary haematological neoplasms (t-HN) treated with allogeneic hematopoietic stem cell transplantation S. Sica
- Survival Improvement in Therapy Related Myeloid Neoplasm: Gustave Roussy Cancer Center experience over the last 30 years J.M. Micol

11.45 Closing Remarks

Registration Fee

Online registration:
- SIE/SIES/ASH/EHA/GIMEMA Members: Euro 250,00 (VAT included)
- Non Members: Euro 300,00 (VAT included)
- Attendees under 30 years: Free

On site registration:
- SIE/SIES/ASH/EHA/GIMEMA Members: Euro 300,00 (VAT included)
- Non Members: Euro 350,00 (VAT included)
- Attendees under 30 years: Free

You must be a member at the time of registration to apply for member rate. Applicants approved for membership after registering for the meeting will not be refunded the difference between the member and non-member rates.

The registration fee includes: conference kit, participation in the scientific sessions, attendance certificate, coffee breaks, lunch, slides of the meeting.

Badge
All registered participants, speakers and sponsors will be given a badge which they must wear to be admitted to the scientific sessions.

Attendance certificate
A certificate will be given to all participants at the end of the meeting.

Italian CME Credits
A request for Italian CME credits have been made as follows:
- Provider Studio ER Congressi SRL: ID 828-164038.
- No. 9 CME credits for Physicians (disciplines: Clinical Biochemistry, Hematology, Medical Genetics, Internal Medicine, Microbiology and Virology, Oncology, Clinical Pathology), Biologists and Biomedical Laboratory Technician.
- Educational objective: “guidelines-protocols-procedures”.

EBAH CME Credits
The program of the “Fifth International Symposium on Secondary Leukemia and Leukemogenesis” meeting has been reviewed and approved for CME accreditation by the European Board for Accreditation in Hematology (EBAH), an independent accreditation body endorsed by EHA. The EBAH has approved this educational activity for no. 12 CME credits for Physicians, Biologists and Laboratory Technicians. To request credits, please fill out the form and return it to the registration desk at the end of the meeting.
We remind you that it is necessary to have an EBAH-CME account in order to claim for credits. Attendees can create an EBAH-CME account registering on the website: http://ebah.org even on site.

Changes
Parts of the program may be changed without notice.
With an unrestricted educational grant of:

- Celgene
- Gilead
- Teva
- Amgen
- Diasorin
- Janssen
- Novartis
